

In the Specification

In the specification, abstract, and parts list, delete all occurrences of "crossflow" and insert in its place --cross stream--. A substitute specification, a substitute abstract, and a substitute parts list are attached, together with a marked-up copy for the Examiner's reference.

In the Claims

Cancel claims 1-20 and 22-45 subject to the filing of a divisional patent application.

Amend claim 21.

Add new claims 46-70.
